Subject: What's going on

To: Strathcona Regional District Board of Directors

Dear SRD Board members,

As a resident of Cortes Island, I am shocked and angered by the obvious delaying tactics and procedural inconsistencies of your board. Have you lost your moral compasses?

This island community is hurting as a result of your actions and inactions. You must know this, yet you continue to pay more attention to the malicious manipulations of a tiny minority while ignoring the goodwill of the vast majority of Cortes Islanders.

The inexcusable hiding of emails by Brenda Leigh, emails which should surely have been part of the public record.

The unprecedented decision to hold a referendum on whether to hold a referendum...

The totally inappropriate comments made by an SRD board member about Noba Anderson during the election campaign.

What on earth is going on?

Yours honestly,

Andy Vine.
